MEMBERSHIP NEWS

In May 2021, DAPi instituted a new format for membership dues. **Our \$15 annual dues are now due on May 1 for the year for all DAPi members.** We didn't collect dues during the pandemic, so this is an opportune time to begin anew. You can pay your dues to Elissa at the meetings or send *DAPi dues for 2021-2022 to Elissa at 6501 Welch Court, Arvada CO 80004-2333.*

COMING EVENTS:

May 2022	DAPI Election
May 2022	Bonnie Kimmel, Speaker, Jeffco Library
June 2022	Mac SIG Subject TBA

REMINDERS

Help SIG: Call Elissa to get your name/problem on the list so our DAPI Help people will be prepared. You will need to bring your computer, your own power cord, mouse and keyboard. Elissa will keep a sign-up list for those asking for help at the Help SIG meetings so members can be helped in a prioritized way. Drop-ins are welcome. Contact Elissa at (303) 421-8714 or elissamc40@comcast.net

Need help with iPad, iPhone? If you would like assistance with navigating and synchronizing your iPad and iPhone, bring them to the Help SIG meeting. Notify Elissa what help you need, and we will try to get the problems resolved.

**NEW APPLE iPhone SELF-SERVICE REPAIR**

<https://www.selfservicerepair.com/home>
<https://support.apple.com/self-service-repair>

You can now do your own replacements on your iPhone by going to the above website for further information and how to order parts as well as the tools and a manual on "how to do it." This is for iPhone owners and requires the Serial Number of your iPhone before parts can be ordered. The online store is operated by a third-party provider authorized by Apple to sell genuine Apple parts and tools.

After you complete your iPhone repairs, you can return the damaged or used parts for recycling. In some cases, you may receive a credit when you return a "replaced part," says the Apple support website.

On YouTube, you can watch an 8-minute video explaining the above information as well:

https://m.youtube.com/watch?v=Rq_vwu4Hh54&feature=youtu.be

Here are the parts you can repair yourself:

- Battery
- Bottom Speaker
- Camera
- Display
- SIM tray
- Taptic Engine

**PHOTO EDITING ON YOUR iPhone**

<https://www.rd.com/article/how-to-edit-photos-on-iphone/>

As iPhone cameras have steadily improved, so has the capability to edit photos directly on your iPhone using the iPhone Photos App. Mario Perez, a photography teacher who helps amateur and professional photographers improve their skills, says "Today's smartphone cameras have professional-grade image quality...." comparing the cameras with what DSLRs or mirrorless cameras used to offer.

Watch a video showing how to do your editing at the above website. One great guideline, before you start editing: duplicate your photo...just in case your endeavors go awry or you change your mind.

Some editing guidelines shown include how to:

- crop a photo
- change the aspect ratio
- rotate a photo
- make a mirror image
- select frames from live photos

- change a photo's filter
- fine tune photo
- auto enhance photo
- change exposure, adjust highlights and shadows

In addition to this Photos app that comes with all iPhones, there are others as well and many are free. Again, go to the above website to view the video and at the bottom are listed other sources.

MAC OPERATING SYSTEMS BEGINNING IN 2007

<https://setapp.com/how-to/full-list-of-all-macos-versions>

Year Introduced	System Name	System Number
2007	Leopard	Mac OS X 10.5
2009	Snow Leopard	Mac OS X 10.6
2011	Lion	Mac OS X 10.7
2012	Mountain Lion	OS X 10.8
2013	Mavericks	OS X 10.9
2014	Yosemite	OS X 10.10
2015	El Capitan	OS X 10.11
2016	Sierra	MacOS 10.12
2017	High Sierra	macOS 10.13
2018	Mojave	macOS 10.14
2019	Catalina	macOS 10.15
2020	Big Sur	macOS 11
2021	Monterey	macOS 12

SOME INTERESTING iPHONE MARKET SHARE 2022 NUMBERS

Cult of Mac says that iPhone shipments grew during first quarter of 2022 and that Android phone shipments (including Samsung, Microsoft Surface, Motorola Razr, Google Pixel) were down by 10%. Remember that Apple accounts for 18% of the global smartphone market.

Woody Oh with Strategy Analytics says, “Apple also captured the highest first quarter market share since 2013, at the expense of leading Chinese brands who are hampered by the sluggish home market.”

COVID-19 AFFECTING MACBOOK PRO PRODUCTION IN SHANGHAI

MacBook Pro production at the Quanta plant in Shanghai has been affected by worker protests because of Covid-19 restrictions. Orders for the MacBook Pro are delayed and some orders placed in February 2022 won't ship until July—5 months after the orders were placed. *Business Insider* says Quanta's Shanghai plant is responsible for 20% of worldwide MacBook Pro production.

Apparently the plant is operating with 2,000 employees now while with full production

there are 40,000 employees.

Workers are revolting because the "closed-loop production," meaning employees remain on campus for extended periods that are typically one month, have become even more restrictive. No one enters or leaves the plant without an on-the-spot negative test, and anyone testing positive on attempted entry is sent to a quarantine center. Now, additional restrictions are being imposed such as not allowing workers to return to dormitories for rest—they are required to stay in the production facility. Workers have a fear of infection—if they do become infected, they go into quarantine center until testing negative. The other concern is that if anyone becomes infected, it might affect everyone and none would be allowed to go home during their scheduled time off.

iPAD POWER-CHARGING ICON

One evening when I plugged in my iPad Pro to charge, I noticed the battery icon at the top right of the screen showing a red/orange color rather than the normal green. I checked my cord, checked the adapter, and everything looked good except the color—not the usual green charging color. So, I did my research and discovered that I had switched to "low power mode" that reduces background activity, such as "downloads and mail fetch," until I can charge my iPad.

The orange color reminds me to switch back to full power.

April 1, 1976

Steve Jobs, Steve Wozniak, and Ronald Wayne* founded Apple, a business dedicated to selling personal computers. The three founders worked in Jobs' parents' garage and developed their first product, Apple I.

In July 1977, Apple introduced 200 personal computers to the market and sold them for \$666.66.

***Twelve days later, Wayne sold his 10% share of new company back to Jobs and Wozniak for US\$800.**

DAPI Slate of Officers for 2022-2023

Voting will take place at our May 17, 2022 meeting. Nominations will be accepted up to that date. Call Elissa at 303.421.8714. Bring your ballot to the May 17 meeting.

Office	Candidates	Your Vote
President	Larry Fagan	
Vice President – Help	Tammy Hanson	
Vice President – Mac		
Secretary	Elissa McAlear	
Treasurer	Larry Knowles	
Membership	Herman Pflueger	
Appointees: Seed Editor Web Monitor	Joyce Etherton Darlene Boord	

Write-In Candidates:

What would you like to volunteer for? (your name and email/phone)

Writing articles for *The Seed*? _____

Presenting programs _____
